Are you looking for tools, tips and training to win safer working conditions for your members?

Join us at the

National Conference on Worker Safety and Health
#COSHCON19

Dec 3-5, 2019, Maritime Conference Center
Just outside Baltimore, MD

#COSHCON19 is an action-packed program that captures the best of what works to fight for better safety and health conditions in all kinds of workplaces. Here's just some of what you can learn during three days of interactive workshops, panels and presentations, with more than 300 health and safety activists. Certificates are awarded for participation in this program to give you the tools to win battles in the strongest worker rights issue we have - the right to a safe job!

How to:

- Use worker legal rights strategically to win safer conditions and build the union.
- Build effective health and safety committees to involve union reps and members.
- Access models and a process to win strong health and safety contract language.
- Share organizing strategies that build strong campaigns and develop leadership.
- Learn effective training and education methods and help develop new trainers.

Plus: Networking with other union leaders and activist leaders from across the country, Health and Safety Expo with many safety product suppliers, an awards banquet, music and more!
